Effective immediately, the department is implementing the following items to assist in the prevention of potential COVID-19 spread and to protect our personnel. These measures ARE NOT suggestions and the following is in effect until further notice:

1. No outside visitors at any station; this includes family members of our personnel. Only our personnel or persons essential to us completing our daily mission shall be in the stations. (UPS, FedEx, or standard mail). ALL deliveries can be limited to the first bay area. There is no need for delivery persons to enter beyond that point. Walk-ins should be treated by pulling the medic to the front apron and treat per protocol/SOG.
2. Each Unit should limit their visitation to the other stations during this time
3. All PR events have been cancelled
4. Fire Prevention inspections (routine) are suspended.
5. All outside meetings, trainings, conferences, seminars, etc. are suspended
6. No Blood pressure checks
7. Medic runs with respiratory complaints, before entering the home/business ask if the patient is ambulatory. If so, ask the patient to meet at the door and place a mask on the patient before making any other contact if appropriate signs/symptoms are present or otherwise known.
8. On multi-piece medic runs (Unconscious, Unknown Emergency, etc.), the first vehicle (preferably the Medic) on the scene shall send two (2) personnel into the scene to evaluate the circumstances. If there is no need for additional personnel, this shall be communicated via radio to the other companies.
9. No EMS/Fire ride a longs
10. No accepting food donations at the stations

This is temporary and the intent of these precautions is to protect our personnel. Please continue to follow all PPE guidelines
